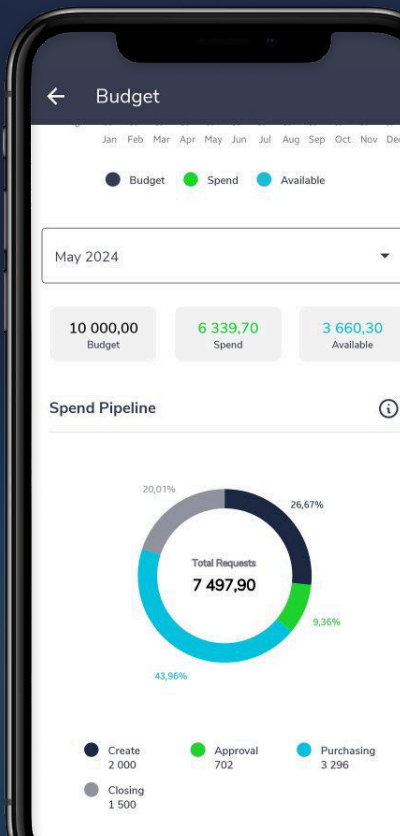
EASY PURCHASING CONTROL FOR SCHOOLS

In education, budget control and transparent procurement processes are essential.

Automating purchasing, expense, and accounts payable processes helps schools optimize resources and maximize budgets. With Fraxion's procure-to-pay software, school staff can focus on their primary mission—educating students—while the software simplifies processes and manages operational spending.

WHY FRAXION FOR SCHOOLS

- Simplify purchasing, expense, and approval processes
- Ensure budget approval and policy compliance
- Manage spending across multiple budgets, grants, projects, and funds
- Replace manual invoice capture with instant data extraction
- Centralize purchasing records and streamline invoice matching
- Meet reporting and audit requirements with complete transparency and accountability
- Gain complete spend visibility and control
- Analyze your spend and identify saving opportunities



PURCHASING, EXPENSE, AND AP TOOLS FOR SCHOOLS

PURCHASE

Easy purchase and capex requests. Upload documents, select approved vendors, and submit for approval.

EXPENSE

Simplify expense claims, travel requests, cash advances and per diems. Ensure policy compliance and speed up reimbursements.

PURCHASE ORDER AUTOMATION

Automate PO generation from approved purchase requests, request and approve change orders, and auto email POs to vendors.

AP AUTOMATION

AI-driven invoice line item data extraction, 2 or 3-way matching capabilities and invoice approvals for improved accuracy and control.

COMPLIANCE

Set up approval workflows and spending limits, ensure budget and policy compliance, and track spend against budgets grants, and funds.

MS TEAMS INTEGRATION

Enables a seamless and familiar purchase request and approval process within your everyday operational tool.

INSIGHTS

Embedded Microsoft Power BI reporting and advanced analytics with dashboards, community insights, and actionable tips.

CATALOG

Easily upload and manage preferred vendor catalogs in Fraxion, allowing staff to shop for pre-approved items at pre-negotiated prices.

MOBILE APP

Easy purchase and expense requests, budget impact review, instant approvals, PO visibility, and receiving capabilities.

INTEGRATIONS

Connect your ERP / accounting solution and save time with seamless data transfer and reduced manual entry.
